

Editorial Index

Vol. 8
March 1972—Dec. 1972

Titles

Carbon Equivalent of White Cast Irons: A. Moore . . . England, March p 15-19
Cast Iron with Vermicular Graphite: J. Sissener; W. Thury; R. Hummer; E. Nechtelberger . . . Norway, Austria, Dec. p 178-181
Dissolution and Desulfurization Reactions of Magnesium Vapor in Liquid Iron Alloys: M. C. Speer, N. A. D. Parlee . . . United States, Sept. p 122-128
Drying of Ceramic Shell Molds: P. N. Atanmo; T. S. Piwonka . . . United States, Sept. p 129-132
Effect of Machine Variables on the Centrifugal Casting of Long Pipes: A. Lazaridis . . . United States, June p 77-82
Effect of Oxygen, Sulfur and Trace Elements on Solidification of Cast Iron: M. Homma; K. Hukuoka . . . Japan, Sept. p 116-121
Feeder Design for Thick Spheroidal Graphite Iron Castings: H. Devaux; M. Jeancolas . . . France, Sept. p 103-109
Fluid Sand: Industrial Process for High Resistance Molds: R. Chevriot; G. Gonon; G. Le Maux . . . France, Dec. p 170-177

Hydraulic Analog Resolves Centrifugal Casting Problems: J. Van Beckhoven . . . Holland, March p 39
Influence of Thermal Contact Resistance on the Solidification Rate of Long Freezing Range Alloys: E. S. Tillman; J. T. Berry . . . United States, March p 1-6
Internal and External Oxidation of Cast Iron at 900C: C. Pelhan . . . Yugoslavia, June p 66-70
Investigation of an Electric Simulator for the Solidification of Castings: K. Chijiwa; M. Ito; M. Kato; M. Iwasaki . . . Japan, Dec. p 154-160
A Method of Bentonite Determination: W. Meyer . . . Austria, Dec. p 161-163
A New Fluid Sand Molding Process: G. Cola; A. Sarti . . . Italy, Dec. p 150-153
Nodular Cast Iron with Medium Silicon—A New Wear Resistant Material: T. Dumitrescu . . . Rumania, March p 7-14
Nucleation of Graphite During First-Stage Graphitization: M. C. Ashton . . . Canada, June p 71-76
Research and the Foundry Industry: K. D. Millis . . . United States, Sept.

p 97-102

The Section Sensitivity of Cast Iron Permanent Mold Castings: A. J. Zuithoff; H. Nieswaag; T. Breedijk; P. M. H. Geelen . . . Netherlands, June p 83-89
Shrinkage and Hot Tearing of Permanent Mold Cast Brass: H. Boswinkel . . . Netherlands, Sept. p 110-115
Solidification of Simple Profiles with Molten Hot Spots: L. T and Cruciform Junctions: G. Sciamia . . . France, Dec. p 145-149
Study of the Solidification of Elbows in Cast Iron: G. Sciamia . . . France, March p 20-24
Theoretical Considerations of Scabbing in Green Mold Casting: A. Schroeder . . . Germany, Dec. p 164-169
On the Theory of Nodular Graphite Formation in Cast Iron—Part I: B. Lux . . . Switzerland, March p 25-38, Part II: B. Lux . . . Switzerland, June p 49-65
Thinning of Cast Iron for Transmission Electron Microscopy: J. W. Sprys; H. K. Plummer . . . United States, March p 40-41

Authors

Ashton, M. C.: Nucleation of Graphite During First-Stage Graphitization, June p 71-76
Atanmo, P. N.; Piwonka, T. S.: Drying of Ceramic Shell Molds, Sept. p 129-132
Berry, J. T.; Tillman, E. S.: Influence of Thermal Contact Resistance on the Solidification Rate of Long Freezing Range Alloys, March p 1-6
Boswinkel, H.: Shrinkage and Hot Tearing of Permanent Mold Cast Brass, Sept. p 110-115
Breedijk, T.; Nieswaag, H.; Zuithoff, A. J.; Geelen, P. M. H.: The Section Sensitivity of Cast Iron Permanent Mold Castings, June p 83-89
Chevriot, R.; Gonon, G.; Le Maux, G.: Fluid Sand: Industrial Process for High Resistance Molds, Dec. p 170-177
Chijiwa, K.; Ito, M.; Kato, M.; Iwasaki, M.: Investigation of an Electric Simulator for the Solidification of Castings, Dec. p 154-160
Cola, G.; Sarti, A.: A New Fluid Sand Molding Process, Dec. p 150-153
Devaux, H.; Jeancolas, M.: Feeder Design for Thick Spheroidal Graphite Iron Castings, Sept. p 103-109
Dumitrescu, T.: Nodular Cast Iron with Medium Silicon—A New Wear Resistant Material, March p 7-14
Geelen, P. M. H.; Breedijk, T.; Nieswaag, H.; Zuithoff, A. J.: The Section Sensitivity of Cast Iron Permanent Mold Castings, June p 83-89
